Product Name: Whitener OB-1

Chemical Name: 4,4'-bis(benzoxazol-2-yl) stilbene

Molecular Formula: C₂₈H₁₈N₂O₂

Molecular Weight: 414.4

CAS No.:1533-45-5

Specification:

Appearance	bright yellowish/greenish crystal powder
Melting Point	357-360°C
Purity	≥98.5%
Color Shade	Blue
Fineness	≧300 mesh
Water insoluble Content	≦0.5%

Whitener OB-1 is crystallized substance and is odorless, hard to dissolve in water. It can be used for whitening polyesters, nylon fibre and various plastics.

Package:

25kg per carton drum with double layer PE bag inside,
or adjust according to client's demand.

Storage:

Store at cool and dry place.
