

FILTER-TRAIN OF SF₆ RECYCLING SYSTEMS

Model No. CHSF-DRF-09DT

Moisture Control For Industrial Process

Power Input : 1Φx230Vx50/60HZ , 0.5KW

- ★ Ensure High purity value of SF₆ by pass the gas through desiccant and molecular sieve filters.
- ★ Two way Pre-Filter Design and element Change-Over very quickly.
- ★ Ensure the dew point of SF₆ in recycling process below –40°C easily.

- ★ Sample line with isolate valve, for purity analyzing at each section.

Replacement Filter Unit.

Replacement **CHIEF** DRF Element.
