

Refrigerant Pump System Positive-Displacement Piston Pump

Model No. CHLP-777

Applications :

CHIEF Liquid pump system is designed for refrigerant recharging process to 30LBs, 35LBs, 50LSs, 60KGs, 100KGs cylinders.

Specifications :

Motor Input	1.5Kw (2.0HP)
Flow Range	6.0Kg/M~18.0Kg/M
Refrigerant Temperature	-25°C ~+38°C
Inlet Pressure Range	0~15 bar
AC Motor Drive	1Φ220V~240V

Discharge Max. Pressure	24 bar
Max. Flow	15 Liter/Min.
Safety Control	High Pressure/Low pressure & over-load stopped automatic
Dimensional Data	68x61x64 cm (L x W x H)
Weight	120 Kg

Features and Benefits :

- ▣ Safety---No heat generated during liquid pump transfer process.
- ▣ Flexibility---Add surge drum and branch pipe to suit your application.
- ▣ Easily Automated---Suitable for many modification and control options.
